RE: Nathan Hoyt

To whom it may concern:

Nathan has served Marquess & Associates as a summer intern in 2015 and has provided design, CAD drafting, code research, and other work related to a multi-discipline consulting engineering firm. During his time here, Nathan has demonstrated the ability to learn and apply engineering principles in building design, plumbing, HVAC, lighting, power, low-voltage systems, fire protection, and general CAD work related to design of buildings and systems. He is very competent in AutoCAD, the design and drafting tool used in this office.

Nathan has been punctual, reliable, easy to work with, conscientious, and very much a low-maintenance individual. He has the ability to work independently, to do his own research, and to understand systems well beyond the limits of just the work assigned to him. He turns out his work promptly and does not waste time between assignments.

As his immediate supervisor during his internship here, I can unhesitatingly recommend him to any potential employer as a valuable addition to their staff.

Sincerely,

Oscar Zuniga, MS, P.E.  
Mechanical, Electrical, & Fire Protection Principal  
MARQUESS & ASSOCIATES, INC.
